

# AGRICULTURE...

**Kentucky's #1 industry  
deserves better.**

**State government  
needs to support  
agriculture.**

We must offer the  
agriculture industry the  
same kind of support  
and incentives we  
have provided  
industrial  
manufacturers.

**As your Senator  
I will support:**

- **Agriculture 2000**

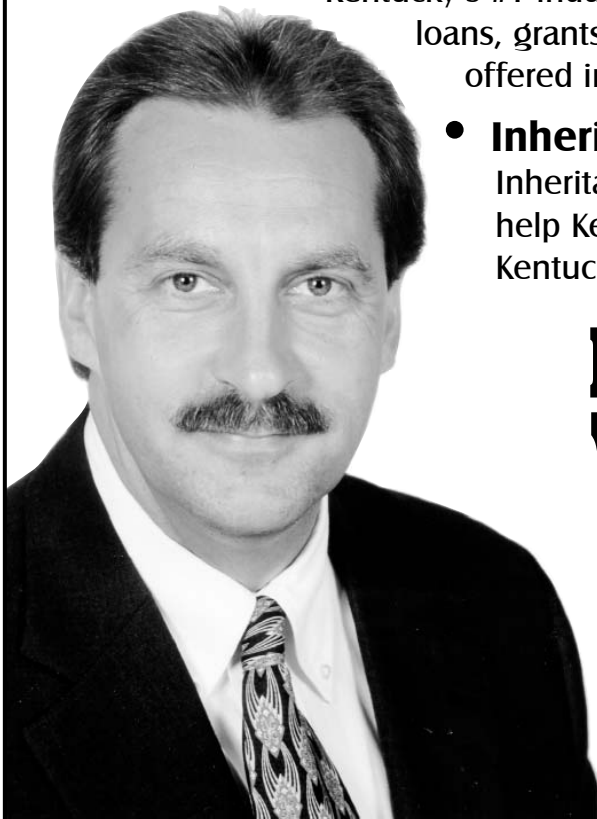

A program to generate \$5 billion dollars in  
Kentucky farm income by the year 2000.

- **Incentives and support**

Kentucky's #1 industry deserves the same low interest  
loans, grants and incentive programs we have  
offered industrial manufacturers.

- **Inheritance Tax changes**

Inheritance Tax laws must be changed to  
help Kentucky farming families and to keep  
Kentucky farms profitable.

**Ed**  
**WORLEY**

**For State Senate**
