

HARD WORK... REAL RESULTS

As **City Manager**, I am proud to say Richmond has become the fastest growing city in Kentucky.

- \$188 million in industrial manufacturing development since 1990
- \$12 million Lake Reba recreational complex
- Over 1000 new manufacturing jobs since 1990
- \$40 million in new highway projects

TAXES: Kentucky's taxes are the fifth highest in the US. I am committed to reducing the size of state government and lowering your taxes.

AGRICULTURE: I support Kentucky farmers and tobacco production. Our #1 industry needs strong research and development support from state government.

HEALTH CARE: I believe doctors, not insurance companies, must make treatment decisions. High quality, affordable health insurance will only be available when insurance companies are forced to compete for your business.

Ed
WORLEY

For State Senator

Paid for by the Ed Worley Campaign Fund, James H. Howard Treasurer.
